

Delivering Tomorrows Technology
.....Today

Presidio Systems, Inc. (PSI) is a certified small, woman-owned business enterprise that provides Mechanical Electrical Plumbing (MEP), Industrial Controls, construction and engineering services to private and public sector clients throughout the US.

Primary Service Areas:

PSI is an environmental engineering/construction firm dedicated to providing cost-effective, quality, turnkey services within these primary service areas:

- ✓ Mechanical Electrical & Plumbing Services
- ✓ Industrial Controls
- ✓ Environmental Services
- ✓ Construction Services
- ✓ Specialized Services (DHS, DoD, DOD, DOE, USACE,FAA)

PSI is a firm providing high quality service but not encumbered by costly overhead and layers of management.

PSI maintains a specialized group of individuals and equipment that self performs MEP, Controls Design & Integration, Operations and Maintenance and civil-related construction work.

PSI's capabilities include all aspects of electrical and civil construction including excavations and grading projects, foundation and structural construction, instrumentation, controls, antenna arrays, concrete structures and retaining systems, site utilities such as storm water, sanitary sewer, water main and laterals, site electrical systems, utility structures and other services that leverage the skills, knowledge and experiences that makes PSI a preferred contractor.

PSI has over 25 years experience in government contracting including branches such as Department of Defense, Department of Energy, United States Army Corps of Engineers, Department of Homeland Security, and Customs and Border Patrol.

Recent project sites include both active and decommissioned Air Force Bases as well as many United States Ports of Entry.

Located in offices throughout California, PSI provides Nationwide coverage and localized support to governmental and industrial clients
